

# PROJECT SHEET

## RETAIL— MULTI-STORE RE-BRANDING

The Re-branding of the Alliance Pharmacy chain to “Your Local Boots Pharmacy” following the merger of Boots and Alliance

GNA provided cost management and Health and Safety services for over 200 stores out of the 1000 stores completed, nationwide.

Each store presented its own unique challenge and required a bespoke solution to meet the business needs.

The construction / fit-out works varied from store to store depending on location and condition but generally involved: asbestos removal, stripping out / demolitions, shopfitting, auto doors, staff facilities, flooring, air conditioning, and electrical services. The majority of stores continued trading throughout.
