GNA have a successful 30 year working relationship with Boots.

During this time we have provided the full spectrum of our services including quantity surveying, project management, CDM, Building Surveying and Party Wall services.

We have supported Boots in Rebranding, new fit outs, Capital Maintenance, refurbishments and roll out programmes.

GNA are proud to have provided services for the rebranding of Alliance stores to “Your Local Boots Pharmacies”.

Over 1000 stores were rebranded in two years, making this project the largest re-branding ever undertaken in Europe.

We have recently completed some new prestigious store openings in St Pancras, Waterloo, and King Cross Stations; Heathrow, Gatwick and Manchester Airports, together with numerous retail parks throughout the UK.

Additionally, for the past seven years GNA have supported the on-going Capital Maintenance programme including cost management of the asbestos removal / management programme.
