

Project:	Lift Refurbishment
Sector:	Commercial
Location:	Edinburgh
Client:	Jury's Inn
Approx Value:	£250,000

GNA were appointed project supervisors and CDM-C for the refurbishment of Edinburgh's Jury's Inn hotel lifts. Works primarily consisted of removing the existing equipment from the motor room and refurbishing the lift car. Works also include replacing the lighting in the lift shaft, console replacement and internal repairs.

Works took approximately 12 weeks and had to be completed to a very tight deadline; the biggest challenge being that the hotel had to remain fully operational throughout the works with as little disruption to the hotel as possible.
