Confidential

Lunar Rise is one of the latest luxury projects situated in Sutton Harbour Marina. It represents part of the regeneration of a number of derelict and under-used Brownfield sites on a significant approach to Plymouth's city centre.

The building ranges in height from four to ten storeys comprising of 109 apartments of one and two bedroom units over a mix of under-croft parking and 8500 sq ft of commercial space in three units.

The coastal location and building orientation presented the Architect, Form Design Group, with a number of design challenges, including its high wind and elemental exposure.

GNA's sister Company, Smerdon and Jones Ltd, was appointed in a cost consultancy role / CDM.
