|--------------|-------------------------------------|
| Project | Refurbishment of Former School |
| Location | Mount Lane, Newark, Nottinghamshire |
| Sector | Private Residential |
| GNA Role | QS / CDM-C |
| Approx Value | £650,000 |

Due to the length of time the building had remained unoccupied, it had fallen into a derelict state.

Structurally, the existing structure had to be restabilised and extensive repairs had to be made to the roof structure.

The previously unoccupied School building was given a new lease of life, renovated and refurbished to serve as a communal facility for residents and living accommodation for a live-in warden.

Internally, the grade II listing building was retrofitted to modern standard creating a comfortable and high quality feel to the rooms.

Working in partnership with our construction partners Guy Taylor Associates, GNA are proud to see this historic building being returned to its former splendour.
