

Project:	<b>New Garage / Workshop &amp; Office Facilities</b>
Sector:	<b>Public / Government</b>
Location:	<b>Bilborough, Nottingham</b>
Client:	<b>EMRCFA</b>
Approx Value:	<b>£1.5m</b>

GNA were an integral part of the team engaged to provide consultancy services for the delivery of a new Garage and Workshop Facility for the East Midlands Reserve Forces in Nottingham. Along with the garage and maintenance accommodation, staff facilities and offices were also incorporated;

A key element of the project was to replace existing external surfacing with a specification that was able to withstand heavy military HGV's and tracked armoured vehicles

Dealing with bi-products such as waste oil and asbestos lined breaks also had to be a consideration.

GNA were appointed as QS and CDM Co-coordinator services as part of their 15 year long framework agreement with EMRF&CA. The project was procured on a traditional basis utilising Bills of Quantities and standard JCT contracts.
