

Project: **Construction of New Entrance and Associated Works**
Sector: **Education**
Location: **Derby Road, Nottingham**
Client: **Foxwood Academy**
Approx Value: **£250,000**

Foxwood Academy is a specialist school located in Nottingham.

The works in July 2011 consisted of constructing a new entrance, together with internal alterations to provide a lobby, reception, offices and easier access via ramps and a platform lift.

GNA were employed in a CDM-Coordinator and QS capacity.

As CDM it was our duty to ensure all potential risks and hazards were identified and controlled by the principle contractor over the 8 week construction period.

In a Quantity Surveyor capacity, we were responsible for tendering the works and ensuring, through tender analysis and effective budgeting / cost control, that the client receive value for money.

With GNA's expertise the project was completed safely and within budget.
