**The Cooperative (Retail)**  
**Negotiated**

The Co-operative Society comprises numerous distinct franchises.

GNA have worked with a number of these over a 25 year period, including Cooperative Wholesale, Plymouth and South Devon, and the Channel Islands Coop.

GNA have provided QS / Cost Management, CDM Co-ordinator, and Building Surveying services on a wide spectrum of projects that include retail shells, fit out of developer shells, refurbishment and re-branding, warehouse, distribution, and petrol stations.

GNA's expertise and services have been applied and utilized to the full spectrum of projects including warehouses, distribution centres and petrol station outlets.

Recent projects are largely focusing on the Midland Co-Operative franchise working on new store shell fit outs in Markfield, Leicestershire, and a new warehouse development in Birmingham.
